

No Cost Cremation through Donation

Eligible individuals receive a free cremation through full body donation to medical research.

Who May Benefit

No Cost Cremation provides a dignified solution for patients who cannot afford cremation, or wish to make a meaningful end-of-life choice that benefits future generations.

This program covers the full cost of **Meadow's Signature Cremation (\$1,295 value)** for qualifying individuals, delivering all the care and benefits of our most popular package, completely free of charge.

Screening Criteria

Most individuals are eligible, including organ donors and those with common diagnoses such as cancer, heart disease, arthritis, stroke, and diabetes. Ineligible conditions include:

- Contagious diseases such as HIV/AIDS, hepatitis B, hepatitis C, and active tuberculosis
- Severe obesity, or extremes in BMI
- Significant decomposition of the body at passing or traumatic injury

Beyond medical history, several other factors may affect acceptance:

- Consent or legal considerations—issues related to obtaining legal authority or required consent
- Suitability for research—the donation must be a match for the needs of medical or educational programs at the time
- Age—donors must be at least 18 years old, but there is no upper age limit

Note, if the patient is on hospice or nearing end of life, the eligibility call can be done in advance. If not, the legal next of kin may complete it after passing.

No Cost Cremation through Donation

Eligible individuals receive a free cremation through full body donation to medical research.

The Process

1

Confirm eligibility

Start with a quick phone screening with our donation partner to ensure the patient qualifies.

2

Obtain consent

If qualified, the partner will proceed with obtaining any necessary legal consent in writing.

3

File paperwork

Meadow will then collect any information necessary to bring the patient into our care, and file all paperwork related to the death certificate or permitting.

4

Donation

Meadow brings the patient to the partner and their donation is allocated towards certain medical research or educational programs.

5

Cremation

When complete, Meadow returns for pick up and then proceeds with the cremation.

6

Return Remains

As always, Meadow handles the return of remains to the family with utmost care.
